Since we want to do this again at some point, we'd like your feedback as to what puzzles you enjoyed and about how long you spent on them. For each puzzle, please indicate how hard you found that particular puzzle, how much you enjoyed it, and how much time you personally spent on it. If you didn't work on a problem, leave the question blank. Also, if you have any general commentary or requests, please write it on the back of this sheet. Thanks for participating!
